DIVISION OF HIGHWAYS

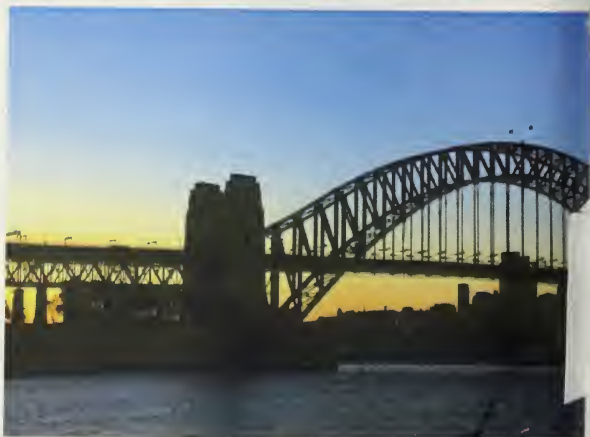

The Illinois Department of Transportation's Division of Highways is responsible for the safe design, construction, operation and maintenance of the state highway system and the administration of the state's local roads and streets program, the third largest in the nation. The state highway system includes 17,000 miles of roads and 8,000 bridges. It is part of Illinois' total system of state and local roads encompassing 139,000 miles and 26,000 bridges.

The bulk of the department's budget is for highway construction and maintenance funded by federal and state motor fuel taxes, sales taxes on fuel and other highway user fees.

The Division of Highways is divided into nine districts throughout the state and is comprised of eight bureaus located at the central headquarters in Springfield. The district offices are responsible for carrying out all of the Division of Highways' operational functions within their geographical areas and the bureaus provide policy, guidance and specialized expertise to the nine districts.

DIVISION OF HIGHWAYS MISSION STATEMENT

Plan, design, construct and maintain a safe highway system with a diverse and professional work force, within available resources, and to the highest nationwide standards for all of the citizens of Illinois.

BUREAU OF BRIDGES & STRUCTURES

- Designing, developing and preparing bridge plans
- Evaluating structural engineering projects
- Assessing bridge damage and preparing plans for corrective action
- Ensuring structures are evaluated and inspected in accordance with federal regulations and state policies

BUREAU OF CONSTRUCTION

- Prequalifying contractors to do business with the department
- Processing contractor payments
- Conducting engineering reviews of construction projects totaling more than \$1.5 billion per year

BUREAU OF DESIGN & ENVIRONMENT

- Developing standards, specifications and policies for highway projects
- Processing plans and contract documents through the bid letting process
- Developing policies for the preparation of environmental impact statements
- Providing aerial photography services
- Processing consultant engineering services/agreements

BUREAU OF HIGHWAY OPERATIONS

- Coordinating the maintenance of more than 42,700 lane miles
- Conducting emergency construction and maintenance operations
- Implementing maintenance and traffic programs, including signing and pavement marking
- Issuing permits for oversize and overweight trucks to use state highways
- Maintaining and operating the scales used for commercial truck enforcement
- Recycling highway signs for the department
- Providing emergency response policies and services for the department

BUREAU OF LAND ACQUISITION

- Property appraisal, negotiated acquisition of property, use of eminent domain and relocation programs and benefits
- Pre-construction property management and excess property disposal
- Property title requirements, parcel documentation and transaction history, program status tracking and final payment processing
- Outdoor advertising control and junkyard control programs as required by state and federal laws

*The district land acquisition offices are responsible for implementation of these policies and procedures in the counties under their jurisdiction.

BUREAU OF LOCAL ROADS & STREETS

- Acting as liaison between the department and local governments in administering state and federal programs
- Allocating more than \$600 million of motor fuel tax funds to counties, cities and road districts
- Providing resources and training through the Federal Local Technology Assistance Program (T² Center)

BUREAU OF MATERIALS & PHYSICAL RESEARCH

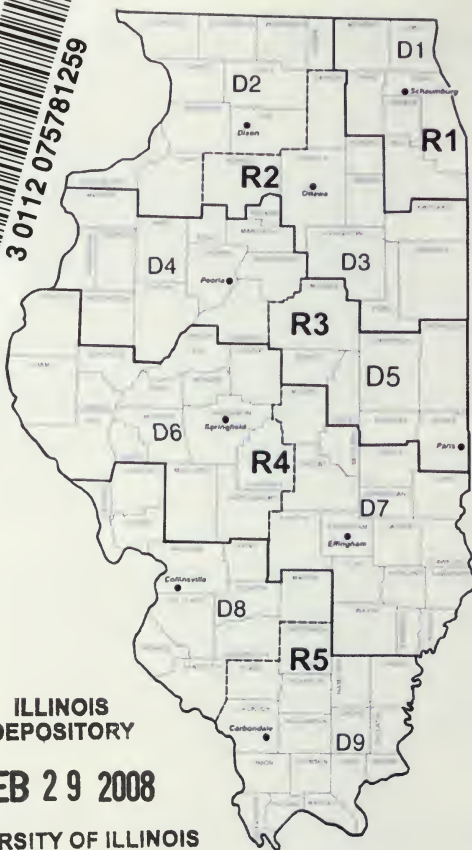

- Conducting laboratory tests
- Planning and conducting investigations of pavement design, rehabilitation and material-oriented problems
- Informing the department of research efforts and findings in highway design, materials, construction and maintenance

BUREAU OF SAFETY ENGINEERING

- Developing, maintaining and implementing the Illinois Comprehensive Highway Safety Plan
- Developing training, policies and procedures to enhance safety on Illinois roadways
- Administering the Highway Safety Improvement Program
- Analyzing trends in fatal and serious injury crashes to provide data-driven recommendations/strategies
